Gwent Registers 800th BADBIR Patient!

Many thanks to all at the Royal Gwent Hospital who recently registered the 800th participant in the BAD Biologic Interventions Register. We are always looking to gain more participants on the Register so if there is anything we can do to aid this, please get in touch.

We hope to have 1000 patients registered by the end of 2009!

Please help to achieve this by trying to register at least **5** biologic or conventional patients during December!

Please phone us on

If ever in doubt over whether a patient is eligible to join BADBIR

GP Letters & Case Notes

Just a short reminder to ensure that a letter is sent to the patient's GP following registration on BADBIR. This is to notify the GP of the patient's involvement in BADBIR

Also, following registration, please remember to document in each patient's case notes that they are participating in the Register.

FUP Due Dates for December

If your centre has any patients on the Register who are due a follow-up in December 2009 we will be sending a summary round on 30/11/2009 with details of what is needed.

We will also send a request for information if there are any incomplete follow-up or baseline records from your centre.

These summaries will be sent out at the beginning of each month for the duration of the project.

Centre of the Month

Congratulations to the **York Hospital** who were the highest recruiters to the Register in November.

This month we say welcome to the following NHS sites that have recently joined BADBIR:
