

# BRITISH ASSOCIATION OF DERMATOLOGISTS BIOLOGIC INTERVENTIONS' REGISTER

## NEWSLETTER September 2009

**Registration Update.** Thank you for your continued participation. It is important that our efforts are maximised to recruit as many patients as possible as we have estimated a required sample size of 4000 patients per biologic drug and 4000 patients to the conventional cohort to truly determine whether treatment is associated with a risk of increased levels of serious adverse events.

### Centre recruitment 24/08/09

Centre	BIOLOGIC					CONVENTIONAL			
	OK	In Edit	Failed Validation	Total		OK	In Edit	Failed Validation	Total
1 - Hope Hospital (Salford)	76	3	0	79		0	0	0	0

<b>Totals</b>	<b>500</b>	<b>44</b>	<b>25</b>	<b>569</b>		<b>85</b>	<b>6</b>	<b>2</b>	<b>93</b>

**Total number of patients on BADBIR 26/08/09 = 662**

**BIR**  
Biologic Intervention Register

Please remember that even if you do not have many patients on biologic therapy, patients on a standard systemic are also eligible

### Important Reminder

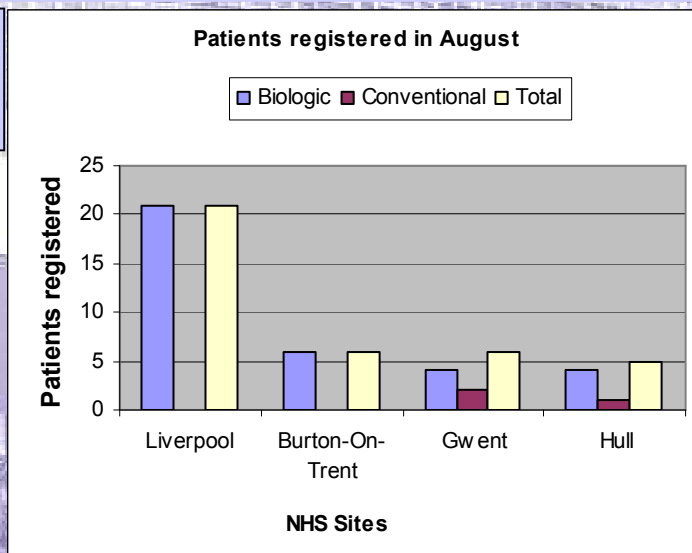

Please note that some patient data is deemed as having failed validation. This is because essential data i.e. consent form, cohort drug name (biologic or conventional), start date or PASI/BSA has not been provided. This means that the patient cannot currently be included in analysis. Please try your best to provide us with this data so we can include these patients and process them to be included in your 6 monthly payments.

## Funding...

Funding is available to support the extra work involved in data collection. The amounts are:

**£120 per patient registered**  
**£30 per follow up visit (total number of visits is 8)**

The leading patient recruitment centre for August is Liverpool, with 21 new biologic patients.

This month we say welcome to the following NHS sites that have recently joined BADBIR.

Models of recruitment patterns Year 1			
Recruiting 2 patients per month 24 patients in year 1 Baseline@£120 =£2880 24 F-up (2@£30 ea) =£1440 Total in year 1 =£4320	Recruiting 6 patients per month 72 patients in year 1 Baseline@£120 =£8640 72 F-up (2@£30 ea) =£4320 Total in year 1 =£12,960		
Recruiting 4 patients per month 48 patients in year 1 Baseline @£120 =£5760 48 F-up (2@£30 ea) =£2880 Total in year 1 =£8640	Recruiting 8 patients per month 96 patients in year 1 Baseline@£120 =£11520 96 F-up (2 @£30 ea) =£5760 Total in year 1 =£17,280
