BADBIR
Autumn 2010

Welcome to the Autumn 2010 edition of the BADBIR newsletter.

Database News

We would like to thank all those who participated in the BADBIR database questionnaire. Your responses were greatly appreciated. We would also like to thank you for your patience and understanding whilst we update our database system, we anticipate the new system will be completed by the end of March 2011. We will be announcing training days in January. These training days will be aimed at familiarising staff with the new system.

North West Regional News

We would like to welcome Danielle Platt to the BADBIR Team. Danielle is working with sites in the North West to help establish an efficient process of recruitment into BADBIR and to ensure patients are followed up effectively. If your centre is in the North West and you would like help and support with BADBIR please contact Danielle at Danielle.Platt@manchester.ac.uk and she will be happy to help.

Upload of UKCRN Accruals

UKCRN accrual data is uploaded on or after the 22nd of each month. This will include patients registered over the previous month. Any patients who are still within the 21 day edit window at that time will be included in next months upload data. Centres will be informed on a monthly basis of the number of accruals that have been uploaded on their behalf.

Patient Questionnaires

Thank you for all the patient questionnaires that have been sent to us. When posting patient questionnaires please could you ensure, that either the BADBIR ID number or patient NHS number is listed otherwise there is no way of identifying which questionnaire belongs to which patient. Please do not place patient stickers on questionnaires that are posted to the office.

BADBIR League Tables

The BADBIR league table below shows the top ten highest recruiters for this quarter. These tables are based on average recruitment per month for July, August and September. Congratulations to Queens Medical Centre in Nottingham for being the highest recruiter.

Centre
1. Queens Medical Centre (Nottingham)
