Congratulations to all at KCL St Johns’ Institute who were the highest recruiters to the register this quarter. Vicki Bates collected the recruiter of the month mug on the centre’s behalf.

**Top 3 Recruiters**
1. St John’s Institute of Dermatology
2. Dublin St Vincent’s
3. Hull Royal Infirmary

The highest recruiters will be receiving a complimentary Recruiter of The Month mug.

We would like to welcome Vicki Bates to the BADBIR team. Vicki recently started as the Clinical Research Associate for the South East, based at St John’s Institute working with Dr Smith and Professor Barker. Vicki is readily available to offer BADBIR sites in the South East, help and support in any aspect of their involvement in this study. She aims to assist all centres within this region to achieve high recruitment and retention of patients onto this valuable register.

If any centres in the South East are interested please contact Vicki victoria.bates@gstt.nhs.uk and she will be happy to assist.

Many thanks to Jo McWilliam from Queens Medical Centre in Nottingham who recently registered the 1500th participant in the BAD Biologic Interventions Register.

We are always looking forward to gain more patients on to the register and would like your help in achieving our goal to recruit 2010 patients in 2010.

If there is anything we can do to aid recruitment for your centre please contact us on 0161 306 1908.

We will shortly be making payments to each trust for all data that was entered between 31/01/2010 to 01/08/2010. Please could all centres ensure that any missing data is completed as this will affect the payments. If missing data is not received by 22/08/2010 than any payments for patients with missing details scheduled for this payment period, will be postponed until the next payment period at the end of January 2011.
Do you need any more Diaries Return Envelopes or Patient Note Stickers? Please let us know via email or phone and some will be posted out to you.
