February 2011

Welcome to the February 2011 edition of the BADBIR newsletter.

Database News

We have now reached the testing stage of the new BADBIR database system. Users have been going through the first few pages of the new database and feedback has been positive. We will keep you all updated on the progress of the new database and would like to thank you all for your help and patience during this redevelopment.

Follow Ups

We'd like to remind everyone that you will not be able to enter clinician follow ups until the new system is introduced. All follow ups need to be completed onto the paper forms and either posted or faxed to the BADBIR office for entry. BADBIR's fax number is 0161 306 1912.

Version 4 Consents

Thank you to all at **Broadgreen Hospital, Liverpool** who are the first centre to complete the re - consenting of all their patients onto Version 4. They successfully re - consented 86 patients. Please note that only patients who were originally consented onto version 3 consent forms need to be re - consented.

Patient Consent Forms

We have been receiving consent forms where the patients have ticked the consent boxes instead of initialling them. Please could all clinicians in charge of consenting ensure the patient initials these boxes.

Centre Achievement

Congratulations to all at **St John's Institute of Dermatology, Guy's and St Thomas Trust** who recently registered their 200th patient! They are the first centre to recruit this many patients to the register.

BADBIR League Tables

The BADBIR league table below shows the top ten highest recruiters in 2011. These tables are based on average recruitment per month for 2011. Congratulations to Western Infirmary, Glasgow for being the highest recruiter.

Western Infirmary, Glasgow

Lancaster Royal Infirmary
