Biologic Interventions Register

## BADBIR Newsletter June 2013

Congratulations to the team at **University Hospitals of North Staffordshire** who were the highest recruiters to BADBIR during **May 2013**. Thanks also to **Glasgow Western Infirmary, Princess Alexandra Hospital Harlow** and **Orpington Hospital South London** who jointly registered the most patients in the conventional cohort.

Matthew Robinson & Alison Wilson at Huddersfield Royal Infirmary pictured minutes before registering their first patient on the BADBIR database

### Upcoming 7000<sup>th</sup> Participant

The **7000<sup>th</sup> patient** is due to be recruited during **June 2013**. If your centre registers a new patient on the database during the next week you may be the lucky recruiter. To commemorate this achievement the recruiter of the 7000<sup>th</sup> patient will be presented with an award at the BAD Annual Meeting during the 16:30 session on Wednesday 10th July.

### Record Breaking BADBIR Recruitment

May 2013 was the **highest ever month for recruitment** to BADBIR. The previous record was passed by a clear 20 new registrations. Thanks to all centres who registered patients during this month.

### BAD Annual Meeting

BADBIR will have stand at this years BAD Annual Meeting in Liverpool from the 9<sup>th</sup> to 11<sup>th</sup> July. If you are attending please come and say hello to us at **Stand 53** in the main exhibition room. BADBIR staff members will be present throughout the conference and available to provide advice or answer any queries you may have.

### **B** Patients Enrolled in BSTOP **B**

Any patients that are enrolled on the BSTOP study now have a marker placed against their name on the 'View All Patients' list of the BADBIR database.

The information on which patients are participating in BSTOP comes directly from the study's coordinating office every 2 months. There is therefore no requirement for centres to inform the BADBIR office each time a patient consents to join BSTOP.

### Psoriatic Arthritis Queries

On last month's newsletter we indicated that we would be asking for clarification on all patients with inflammatory arthritis to ask specifically if this is a current diagnosis of psoriatic arthritis.

**"It has been reported previously that this patient has inflammatory arthritis. Is this specifically a diagnosis of psoriatic arthritis? If yes, please also provide the year of diagnosis by a rheumatologist"**

All these queries have now been added to the database and we would greatly appreciate any responses that you are able to provide. If you have any questions please contact the BADBIR office.

### New 100 Club Members

**Orpington Hospital South London** and **St. Vincent's Hospital Dublin** are the latest centres to pass the land mark total of **100 registrations** to BADBIR. **18 centres** have now passed 100 recruits on BADBIR. Congratulations to all at the 2 dermatology departments involved. A **BADBIR Bear** is on its way to each centre.

#### Full Membership List:

<i>Aneurin Bevan Health Board</i>	<i>NHS Greater Glasgow</i>
