

BIR

BADBIR Newsletter November 2016

Biologic Interventions Register

Keeping up with BADBIR

Enbrel recruitment

Recruitment to Enbrel (etanercept) ceased on 31st July 2016. Any **new recruits** who commenced Enbrel on or after 1st August cannot be recruited to BADBIR. Important Note: **Do not** substitute Benepali (etanercept biosimilar) for Enbrel (etanercept originator). This is because we must ensure that we are able to discriminate between these drugs on safety outcomes.

Our first ever patient newsletter was released onto our website in July 2016. The PDF version can be found using the following link:

http://www.badbir.org/Data/Participants/PatientNewsletter2016.pdf

Please direct your patients to the BADBIR website for electronic copies of the newsletter or why not display one in your clinic?

PASI/DLQI

Ideally the baseline PASI and DLQI should be prior to the patient starting their BADBIR registration drug although we do accept patients with PASI and DLQIs after commencement date as long as they still meet the eligibility criteria. If you are unsure if you have an eligible PASI or DLQI please contact a member of the BADBIR team to check.

- 1. BADBIR is now accepting all new biologic registrations starting **Taltz** (ixekizumab). Switches to **Taltz** at follow-ups can be recorded as normal.
- 2. A new and improved BADBIR website has been launched for your convenience with the same old web address:

www.badbir.org

We hope you have a more improved experience with this website!

As per BADBIR Study Amendment 8 the minimum age limit (16 years) for patients joining the BADBIR study was removed, which means children are on board! (Please note all other eligibility criteria must still be met for paediatric participants).

If you are in doubt whether or not you can recruit children to the study at your hospital, please feel free to contact BADBIR via phone or e-mail for confirmation.

BADBIR looks forward to welcoming more children to the study.

Some database features may not work in internet explorer and Mozilla Firefox such as the BADBIR drugs chart (shown at the bottom

of the biologic/conventional therapy page) and the charts displaying patient DLQI and PASI scores on the 'Patient charts' menu sub link.

Solution: To view the BADBIR drugs chart and DLQI and PASI charts we recommend using google chrome.

If you encounter any other problems please inform us .
