Summer 2019

Recruitment Milestone Passed

The landmark 18,000th registration to
BADBIR has now been passed. Many thanks to Sue
Hood and team at Ipswich Hospital for recruiting.
Thanks to all centres involved for their efforts in reaching this notable milestone.

There are now over 12,000 registrations in the Biologic Cohort of the study with 6000 in the Conventional Cohort. The Small Molecule Immunomodulator Cohort which launched last year currently has 300.

Important Information on Humira & Stelara

With effect from 01/08/2019, BADBIR will <u>no longer be able to</u> <u>accept</u> new baseline registrations of patients commencing **Humira** (adalimumab) or Stelara (ustekinumab). All patients consented after 31st July will not be able to join the Register.

For patients already registered in the biologic cohort, follow-up can continue to be entered as normal for any changes to Humira or Stelara.

BADBIR will continue to recruit for 11 drugs in the biologic cohort and 2 in the Small Molecule cohort.

BADBIR Office Move

The BADBIR office has moved addresses. Telephone and email addresses remain unchanged. The new postal contact details are:

BADBIR

The University of Manchester 1st Floor Bright Building Manchester Science Park M15 6GZ

Please note that the fax number for BADBIR has now closed. Any faxes sent from 1st May onwards will not have been sent successfully. Consent forms should be uploaded directly to the database.

Registration Drugs

Since the last newsletter, we have added eight new therapies to the list of registration drugs in the Biologic therapy cohort:

Amgevita (Adalimumab Biosimilar) Hyrimoz (Adalimumab Biosimilar) Kyntheum (Brodalumab) Tremfya (Guselkumab) Cimzia (Certolizumab Pegol)
Imraldi (Adalimumab Biosimilar)
Ilumetri (Tildrakizumab)
Zessly (Infliximab Biosimilar)

Please see the BADBIR website for a full list of current registration drugs in the Biologic, Conventional and Small Molecule Cohorts.

Hospital Anxiety and Depression Scale (HADS)

With effect from 17/06/2019, we will request that all patients complete the HADS questionnaire from baseline to follow-up 6. This questionnaire was approved for use last year in study amendment 11 and we have now received final permission from the licence holder to use HADS.

The data entry pages are open to collect the questionnaire. In the event HADS being missed, please remember to record 'No' to the 'Was a HADS Questionnaire completed' to avoid data queries.

Scores for both anxiety and depression will be automatically calculated on entry by the BADBIR database system with high scores highlighted. Please see the link to the HADS scoring criteria and some exemplar text that may be used/modified at your discretion to inform the patient's GP (or other appropriate health care professional) as per your usual clinical practice.

Reminder on Biosimilars

Data collection has now started for participants receiving adalimumab biosimilars. Currently, new registrations are accepted of patients commencing on Amgevita, Hyrimoz & Imraldi.

Please be reminded that it is **essential** to update the BADBIR database with the specific trade name of the treatment being received. For example, if a patient stops Humira to immediately switch to any adalimumab biosimilar, this change must be recorded as part of the next follow-up data entry.

Additionally, if patients are switching from Humira (adalimumab) to a biosimilar due to Trust-led procurement policy, please record the drug stop reason as 'Financial Consideration'

Please contact the BADBIR office team with any queries on data entry: badbir@manchester.ac.uk / 0161 306 1896
