Has the Site Specific Information Form (SSIF)* been submitted to the local REC for each local Principal Investigator? <i>*or Part C or Annex D of the former MREC application form if submitted prior to 1 March 2004</i>	<i>Yes up until change in April 2009 now Trust R & D only</i>

5. Recruitment of participants

*Number of participants recruited:	<i>4385 biologic cohort and 2603 controls</i>

*Number of withdrawals due to: (a) lack of efficacy (b) adverse events (c) self-withdrawal (d) non-compliance Total number of withdrawals:	N/A N/A 19 N/A <i>61 (35 deaths, 19 withdrawal of consent, 7 emigrated)</i>
Have there been any serious difficulties in recruiting participants?	<i>Falling behind recruitment targets</i>

If Yes, give details:	There have been some delays due to the local sites approval process and also insufficient local infrastructure to support recruitment of patients. The acceptance of BADBIR onto the UKCRN Study Portfolio in 2010 has made a significant impact on recruitment into the conventional cohort and most of the sites are now recruiting patients. However, it has been recognized that it is highly unlikely that the target recruitment will be reached by the end of recruitment date of 31 st July 2013. Therefore, recruitment is to be extended to 31 st July 2017.
Do you plan to increase the planned recruitment of participants into the study? <i>Any increase in planned recruitment should be notified to the main REC as a substantial amendment for ethical review.</i>	No

* In the case of international trials, please provide separate figures for UK and non-UK participants.
