Amendment number: 1
Amendment date: 04 April 2007

Thank you for your letter of 04 April 2007, notifying the Committee of the above amendment.

The amendment has been considered by the Secretariat of the North West Research Ethics Committee.

The Committee does not consider this to be a "substantial amendment" as defined in the Standard Operating Procedures for Research Ethics Committees. The amendment does not therefore require an ethical opinion from the Committee and may be implemented immediately, provided that it does not affect the approval for the research given by the R&D office for the relevant NHS care organisation.

Please Note: As the study is not a Clinical Trial of an Investigational Medicinal Product there is no requirement to notify the Committee of the addition of research sites via the submission of a Notice of Substantial Amendment Form.
